

DIY WALLBED KIT

The Beta Bed

DIY Wallbed Hardware Kit

This hardware kit can be used to make your own Wall Bed of any size, as you construct the bed frame and surrounding box to suit your taste and needs.

The Wall Bed hardware kit consists of:

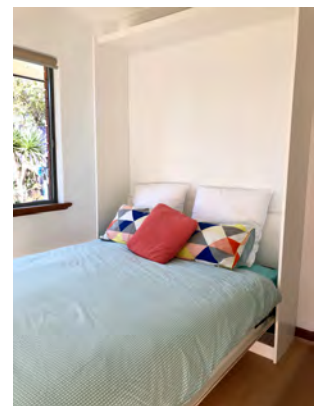

- the spring mechanism,
- springs,
- bed legs,
- bed leg connector rods,
- fixing hardware &
- 20 page instruction booklet which includes timber cutting information. The only other material you need to purchase is your choice of timber.

DIY Hardware Kit: \$595 (\$675 in Tasmania)

(Inclusive of GST and freight. Regional areas may incur additional freight costs)

All you need
to build
your own
WALLBED
SYSTEM!
