DIY Wall bed Mechanisms for Joiners

These mechanisms are imported from Europe and provide you with the opportunity to build a fully customized wall bed, complete with high quality cambered beech slats and a fully enclosed spring system.

We provide a quality mechanism – YOU work with your joiner to supply the cabinetry to suit your décor!

1. DIY Mechanism

This is a mechanism you can install yourself!

Install it inside an existing cupboard* or build or choose one of your own. *Requires cabinet 500 mm deep.

- One-piece welded steel bed frame, complete with cambered beech mattress slats, in flexi-cups.
- Comes complete with mounting brackets, bolts and screws, cutting instructions for your cabinetry and installation instructions
- Attaches to the floor and/or wall
- 2-year warranty
- Measurements below are of finished cabinet
- Maximum mattress thickness is 25 cm

MEASUREMENTS (Cabinet)	Width	Cabinet Height	Depth folded out	Cabinet depth	PRICE (Excl Freight)
Single	992	2230	2200	500	\$1200
Double	1492	2230	2200	500	\$1450
Queen	1592	2230	2350	500	\$1500

NB: Prices are for the mechanisms and mattress slats and slat holders only – a qualified joiner needs to build these mechanisms into the cabinetry (except for the DIY Mechanism).

Mattress and cabinetry NOT included in prices.

Prices as at Feb 2020

2. Single horizontal wall bed mechanism (Lowline)

Available in single size only.

Perfect for narrow spaces, and the top can be used as a display area, TV stand, bookshelf etc.

- Sturdy welded bed frame in one piece complete with cambered beech mattress slats, in flexi-cups
- Comes complete with mounting brackets, bolts and screws, cutting instructions for your cabinetry and installation instructions
- 2-year warranty
- Tension adjustable, fully enclosed spring mechanism
- Maximum mattress thickness is 25 cm

MEASUREMENTS (Cabinet)	Width	Cabinet Height	Depth folded out	Cabinet depth	PRICE: (excludes freight)
Single	2000	1140	1250	500	\$1596

NB: Prices are for the mechanisms and mattress slats and slat holders only – a qualified joiner needs to build these mechanisms into the cabinetry (except for the DIY Mechanism).

PRICES EXCLUDE FREIGHT – Please request a quote.

3. One-piece door wall bed mechanism (Streamline)

Would you like your bed to look like a simple cupboard – with the added comfort and aeration from mattress slats?

- A simple streamlined look, without compromising on comfort
- The architects favourite!
- Comes with cambered beech slats, flexi-cup slat holders, a powder coated fold down leg, along with the mounting brackets and fully enclosed tension adjustable spring mechanisms
- Complete cabinetry cutting list and assembly instructions included
- 2 Year warranty
- Maximum mattress depth 25cm.

MEASUREMENTS (Cabinet)	Width	Cabinet Height	Depth folded out	Cabinet depth	PRICE: (Excl Freight)
Double	1500	2100	2350	500	\$1290
Queen	1600	2230	2500	500	\$1364

4. Split-door fold down wall bed mechanism (Premium 3000)

Looks like a 4-door cupboard – with 2 at the top and 2 main doors.

When it is opened the top ‘doors’ act as the foot support.

- Sturdy one piece welded metal bed frame
- Cambered beech slats in flexi-cup supports
- Fully enclosed tension adjustable spring mechanism
- Mounting brackets, bolts and screws
- Cabinet cutting list and comprehensive installation instructions included
- 2 year warranty
- Maximum 25 cm mattress.
