

# DIY WALLBED KIT

## The Beta Bed

### DIY Wallbed Hardware Kit

This hardware kit can be used to make your own Wall Bed of any size, as you construct the bed frame and surrounding box to suit your taste and needs.

The Wall Bed hardware kit consists of:

- the spring mechanism,
- springs,
- bed legs,
- bed leg connector rods,
- fixing hardware &
- 20 page instruction booklet which includes timber cutting information. The only other material you need to purchase is your choice of timber.

#### DIY Hardware Kit: \$695

*(Inclusive of GST. Freight not included).*

*All you need  
to build  
your own  
WALLBED  
SYSTEM!*
