WALL BED SELECTION CHECKLIST – Fold Out Furniture

Wondering if a wall bed is right for you and your home?

We are here to help you, so have a look over the information below and let's start the conversation 😊.

1. **Space available:** Measure the space where the wall bed will be installed and choose one that fits properly.

Sketch your measurements in the space below (Include doors, windows, power points, heaters, ceiling fans, cupboards, ceiling height, type of walls, any party (fire) walls, etc):

2. Type of bed:

- a. Consider the type of wall bed you need i.e.:

i: single, double, queen or king?

ii: horizontal or vertical?

iii: with accessories? Desk? bookcase? Sofa? Side units? etc

Comments:

3. **Effort required:** Which of these sounds like you?

I have the tools, time, and experience to put together my flatpack wall bed

I want someone to install the wall bed for me

I want to buy just the wall bed springs and base, and make my own cabinet

Comments:

4. **Local vs Imported wall beds (or best of both):** Would you like a locally made bed or a bed imported from overseas? What are the design features and functions you are after? Talk to us about the differences in style, mechanisms, finishes and functions.

Comments:

5. **Do you need any customised storage cabinetry to match the bed?** Extra hanging space; filing space; drawers; overhead storage?

We offer a level of customisation for both our local and Italian beds.

Comments:

6. **Comfort:** We offer wall bed mattresses in your choice of innerspring or foam or you may have a mattress you would like to use? Does the bed take a standard size Australian mattress, or does it need a customised size mattress (e.g. our Italian beds)?

Comments:

7. **Timeframe:** When do you need the bed by? Or is your timeframe flexible?

Comments:

8. **Load capacity:** Consider the weight capacity of the wall bed and make sure it can support the weight of the users.

Is it for personal use or commercial application? (Airbnb's? Hotels etc?)

Comments:

9. **Material:** Choose a wall bed made from durable and environmentally friendly materials and with a strong assembly system.

Comments:

10. **Wallbed Cabinet measurements:** What is the depth of the cabinet? How does this impact on your space?

Comments:

11. **Style:** Talk to us about the cabinetry colour range that suits the decor of your room., or whether you would like something a bit more original?

Comments:

12. **Mechanism:** Does the bed use a spring or gas piston system? What is the warranty for these?

Comments:

13. **Price:** Set a budget and choose a wall bed that fits within it without compromising quality or functions needed. Consider costs for installation, specialised delivery etc as well if required.

Comments:

14. **Brand reputation:** Consider the reputation of the manufacturer and choose a well-established brand. How long has the business been operating?

Comments:

15. **Warranty:** Look for a wall bed with a good warranty for peace of mind.
